

AUREX (AUX) — Whitepaper

Version 1.0

January 2026

1. Introduction

AUREX (AUX) is a BEP-20 token deployed on the BNB Chain, created with a focus on transparency, fair distribution, and low transaction fees.

The project follows a slow and organic growth approach, prioritizing trust and community alignment over hype-driven launches.

2. Project Philosophy

AUREX is built on the belief that sustainable crypto projects require solid foundations. Rather than short-term speculation, the project emphasizes clarity, open communication, and gradual development.

There are no unrealistic promises, guaranteed returns, or aggressive marketing strategies.

3. Token Information

- **Token Name:** AUREX
 - **Symbol:** AUX
 - **Network:** BNB Chain (BEP-20)
 - **Contract Address:**
`0x8c0D6ee99D4D376E99DF5D4Ba63e8e412b8e6335`
-

4. Tokenomics

- Fair launch
- No private or seed sales
- Liquidity locked
- Low transaction taxes

The tokenomics are designed to support healthy market behavior and long-term participation.

5. Roadmap Overview

AUREX follows a step-by-step roadmap:

- Phase 1: Contract deployment, verification, liquidity lock
- Phase 2: Community building and transparency
- Phase 3: Gradual exploration of utility aligned with community needs

All future developments will be communicated publicly.

6. Transparency & Security

- Contract verified on BscScan
- Liquidity locked via third-party locker
- Public communication channels

Security and transparency are treated as ongoing commitments.

7. Disclaimer

AUREX (AUX) is a community-driven token.
Nothing in this document constitutes financial advice.
Participants are responsible for their own research and decisions.
